Nempnett Pastures, Nempnett Thrubwell, Blagdon, Bristol, BS40 7UZ

www.nempnettpastures.co.uk

Nempnett Pastures; a small family farm located in Nempnett Thrubwell, their mission is to produce honest, healthy, nutrient dense food using regenerative farming practices. On their farm they have pasture grown beef, turkeys and chickens.

As it's a busy working farm it will depend on what you see and what time you visit. There are calves spring/summer time with the arrival of the chickens in Spring throughout the summer then the turkeys arrive in June/July through to Christmas.

See at work, the 2 wonderful guardian dogs Bear and Holly. They live with the chickens and turkeys and keep them safe from predators allowing the birds to remain free range and live out day and night. What a great way to look after the flock!

Take a tour of the farm in style on a tractor and trailer. The group will be given a worksheet on arrival so they can keep note of everything they see and take it back to school for any follow up work should you wish to do so.

We can offer a half or full day here for groups of 30 (or 1 class size). And can be tailored to your learning. Whether that's where your food comes from to animals and habitats to seasons.
